DIAGNOSTIC SERVICES	AMOUNT
<b>1. Home Performance with Energy Star Comprehensive Home Assessment (HPwES CHA)</b> Includes gathering information about the homes construction and energy use, modeling this information in the NYSERDA approved software, and presentation of Energy Star Assessment Report including Cost/Benefit Analysis of improvement recommendations to projected energy savings.	<b>\$350</b>
<b>2. FLIR or Thermal Imaging Diagnostics</b> A clear report shown in a picture by picture format that pinpoints where lack of insulation (thermal weakness) or breaks in the air barrier are occurring. (This test is weather dependent.)	<b>\$200</b>
<b>3. Water Test</b> Test levels of Hardness, Iron, Sulfide, Copper, Manganese, and Tannin.	<b>\$100</b>
<b>4. Duct Seasonal Calculated Operational Running Efficiency (SCORE)</b> Additional diagnostic testing that indicates weakness in the distribution system and allows for a much more comprehensive analysis of temperature balance and control problems, and their potential impact on energy use.	<b>\$300</b>
<b>5. Room-by-room Heat Loss and Heat Gain</b> Helps provide a clearer understanding of why some rooms are hard to heat or cool. Very useful in conjunction with Duct SCORE for developing effective comfort solutions.	<b>\$300</b>
<b>6. AirAdvice™ and RadonAdvice™</b> 3-7 day air sample test that will provide a report on Temperature, Humidity, Carbon Dioxide, Carbon Monoxide, Particulates (DUST), VOC Chemical Gases and Radon.	<b>\$250</b>
<b>7. Electrical Service Inspection</b> Evaluate the condition of the electrical service along with measurements of actual usage on some of the major appliances.	<b>\$100</b>
<b>8. Advanced Air Diagnostics</b> To perform advanced air pressure testing from room to room, basement, attached garage and attic(s).	<b>\$300</b>
